DETAILED ACTION

1. Claims 81-95 are pending. Claims 81, 86, and 91-95 have been amended in this communication filed 7/02/07 entered as Response to Non-Final Action and Request for Extension of Time.
2. The IDS filed 7/18/07 has been considered and entered.
3. The claim objections to claim 81 have been overcome and are hereby withdrawn.
4. The 35 USC 112, second paragraph rejections for claims 81, 86, and 91 have been overcome by Applicants' amendment to the claims and are hereby withdrawn.
5. The following is an examiner's statement of reasons for allowance: Accordingly the invention would NOT have been obvious because one of ordinary skill could not have been expected to achieve a method, computer system, and a computer readable medium for processing Financial Service Organization (FSO) transactions by selecting a search mask table corresponding to the key definition with the search mask table comprising one or more search masks, reading a first search mask from the table with the first search mask comprising one or more search mask fields, each of the one or more search mask fields corresponding to one of the one or more data element values identified by the key definition and each of the one or more search mask fields comprising a search mask field value, setting the first processing key values to a wild card value if the search mask field value comprises a wildcard search mask field value, and creating one or more additional processing key values being formed using one or more additional search masks obtained from the selected search mask table, NOR

would they have been able to predict the results, and as such, they would have had no capability of expecting success.

For these reasons claims 81, 86, and 91 are deemed allowable over the prior art of record, and claims 82-85, 87-90, and 92-95 are allowed by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kean (US 5,500,609) disclosed a wildcard addressing structure.

Fujitsu, Ltd (JP 11312166A) disclosed a key definition, an index key generation unit that determines a key value range of an item name based on a key value range of the output index key.
